Quick Guide V1.2

安裝前準備, 请务必先仔细阅读设备安装教程

请务必先仔细阅读设备教程, 设备教程二维码可扫描下方二维码或访问
Please scan the QR code to watch the installation tutorial before installing the device.
Bitte scannen Sie die QR-Codes, um die Anleitung für den Einbau anzusehen, bevor Sie das Gerät installieren.
Youtuber channel code QR pour afficher le guide d'installation avant d'installer l'appareil.
Eseguire la scansione del codice QR per visualizzare i tutorial di installazione prima di installare il dispositivo.
Učitelná stránka tutoriala pro nastavení zařízení QR, aby zjistíte potřebné informace před instalací. Skánez QR-kódem před začátkem instalace a naleznete podrobné informace o instalaci.
Scan de QR-code om de installatietutorial te bekijken voordat je het apparaat installeert.
Escarve el código QR para ver la guía de instalación antes de instalar el dispositivo.
Por favor, leia o código QR para assistir ao tutorial de instalação antes de instalar o dispositivo.
Установите устройство, ознакомившись с QR-кодом для просмотра руководства по установке.

1 安裝前準備

1. 設備不兼容導致電機驅動器異常。

2. 設備驅動器與滑道尺寸不匹配, 設備滑道長度 < 40mm, 否則無法安裝設備。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

3. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

2 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

3 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

Zigbee Smart Curtain Motor

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

3 設備不兼容導致電機驅動器異常

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

4 設備不兼容導致電機驅動器異常

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

5 設備不兼容導致電機驅動器異常

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

6 設備不兼容導致電機驅動器異常

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

2-1 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

2-2 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

2-3 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

3 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

4 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

5 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

6 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

7 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

8 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

9 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

10 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

11 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

12 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

13 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

14 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

15 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

16 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

17 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

18 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

19 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

20 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

21 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

22 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

23 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

24 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.

25 安裝前準備

1. 設備不兼容導致電機驅動器異常。

1. The device is not compatible with the motor track dimensions.

2. The device driver does not match the motor track dimensions. The device track length < 40mm, otherwise the device cannot be installed.
