FCC compliance statement

This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body.
 This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

ISED Notice
 This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSSs. Operation is subject to the following two conditions:
 (1) This device may not cause interference;
 (2) This device must accept any interference, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment causes harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna;
 -Increase the separation between the equipment and receiver;

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected;
 -Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement:
 This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
